

Passionate Explorer and Experienced Historical Guide

As a dedicated Historical Guide, I've had the good fortune of transforming my passion for travel and working with people into a successful career. I'm also incredibly privileged to have guided clients from all over the world on tours both locally in Copenhagen and abroad.

I grew up in Luxembourg and Los Angeles with my Danish family. I attended international schools, giving me a wide horizon and a good cultural understanding. Now living in Copenhagen with my family, I have a keen eye on the local scene and an acute understanding of Danish culture, mentality, and history seen from the inside - and outside. I can translate 'hygge' and 'vores by', so you get it and each tour is as individual as the person or group it is created for.

My mission is to show a different side of the world to my clients and to help them gain a better and deeper understanding of the sites and destinations we visit.
